

Sponsor a Family

IntriCon Corporation

The Sponsor a Family program was a great success this past holiday season!

The Family Sponsorship Program is coordinated by the Volunteer Services Unit of the Ramsey County Community Human Services Department. This program matches community sponsors with families in need, providing gifts and food for the families. The employees of IntriCon sponsored two families of six over the holidays. Both families had four children with ages ranging from 6 months to 16 years, each with unique needs and wants for the holiday season.

IntriCon employees made both cash and many gift donations of items on the family's wish lists. The wish list had items such as: clothes, toys, books, and pots and pans. Due to the generosity of the IntriCon employees we were able to purchase something off of everyone's wish list. In addition we were able to help make the holiday season extra special by providing each family a food gift card. As a result, the families not only had gifts to open this holiday season but they also were able to have a special family meal. The families as well as the Ramsey County Volunteer Services Unit were extremely thankful.
